Chris,

It was good to talk late yesterday and we look forward to our discussion tomorrow. I wanted to confirm our agenda for tomorrow, which I think reflects our discussion. Do you have anything you would like to add to the draft below?

Draft Agenda for 8/30 discussion

1. A discussion of items 3 and 4 from our earlier note
 - further discussions around the regarding the supporting rationale for screening values for chlorophyll A for the Plains and Ozark Border
 - further discussion on eutrophication factors associated with screening values as compared to the Bioconfirmation guiding principles.
2. A discussion of how the screening values and eutrophication factors will be used, especially for permitting
3. Options for actions we can take to move forward
4. Next steps

Best, Betsy

Great to hear from you, Chris. As I had mentioned I will be out of the office for the rest of the week but 11:30 (central time) on Wednesday should work for our folks.

Cheers,

Sara

Sara and Jeff, I was wondering if you and your staff could be available to have a technical discussion regarding the MO WQS on Wednesday this week at 1130 central time?

Thanks,
